

SVETIONIK-PRINCIPI CAAD-A

Katarina Dekić 63/2012

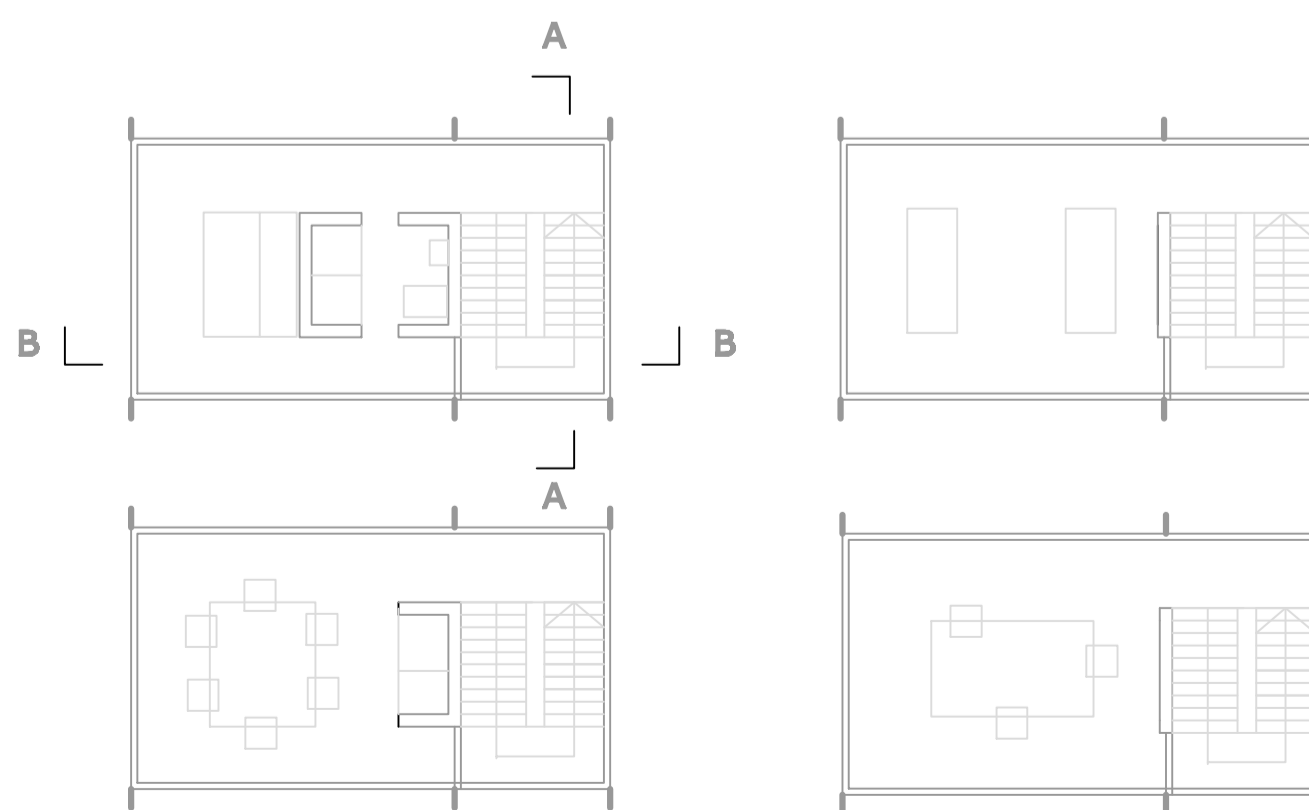

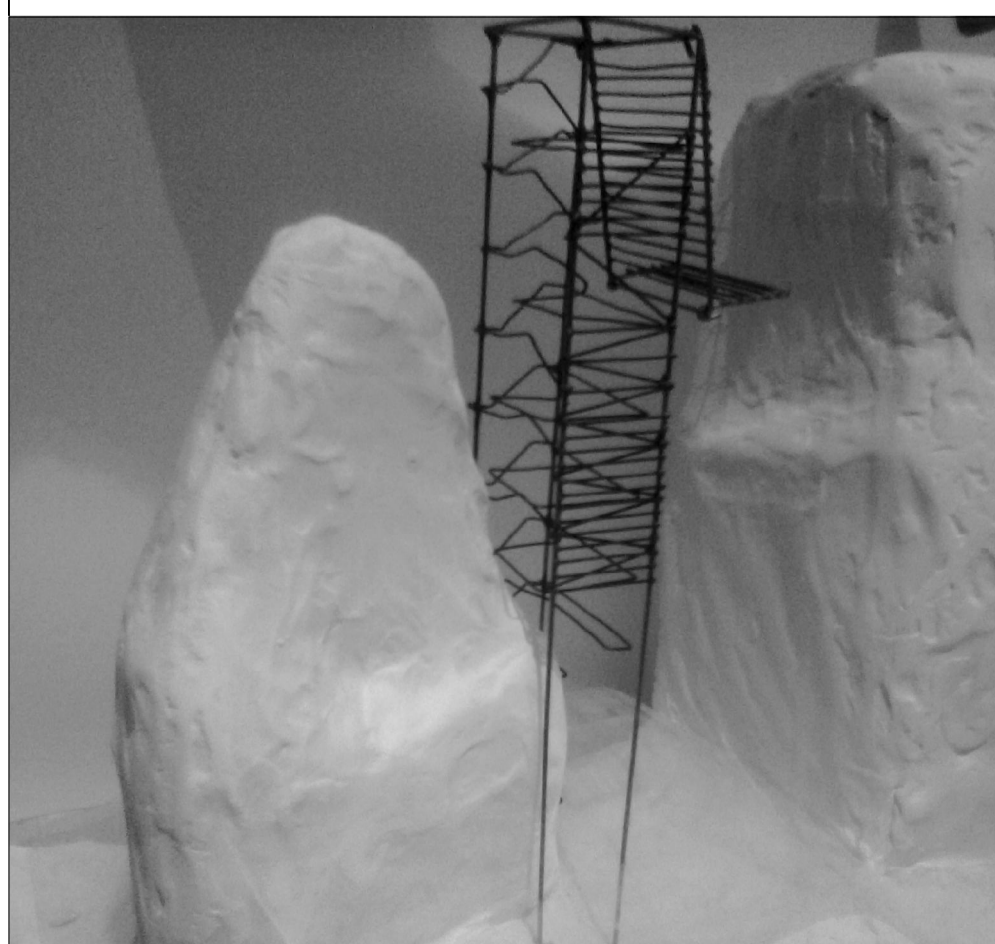

Moj svetionik plombira manju stenu kako bi se nadomestila viša i pravilna stena. Pokretni deo fasade ujedno je i most kojim se može preći na višu stenu. Unutrašnji prostor je minimalan. Svetionik je od čelika i stakla sa brisolejima koji štite od sunca.
