The main goal of the project was to create a modern and functional living space. The design was based on the concept of a central living area, which would be surrounded by other rooms. The layout was designed to be open and flexible, allowing for different ways of living. The design was also inspired by the idea of a 'living room' that is not just a place to sit, but a place to live. The design was also inspired by the idea of a 'living room' that is not just a place to sit, but a place to live. The design was also inspired by the idea of a 'living room' that is not just a place to sit, but a place to live.
