

Project

Euralille Hotel Project

ホテル インユーラリール計画

Lille, France, 1990-1992

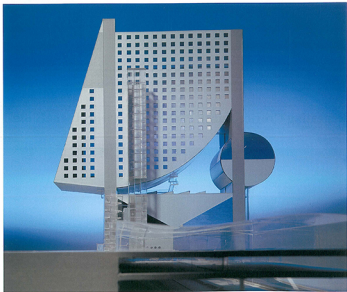

1st stage section, scale: 1:50000

2nd stage section

3rd stage section

Plans for a hotel within an urban development of the area surrounding TGV Lille Station. (The overall plan had been devised by Renk Kuhlhaus.) The first proposal was a work for an exhibition, with the second design process assuming actual implementation. Economic circumstances had forced changes in the plan allowing for a third proposal however, when the scale was requested to be diminished by a further half, Shinglers himself decided to leave the project.

TOYOは、都市開発の中心地として、Lille（リール）にホテルを計画し、第一階段の設計を完了させた。しかし、経済状況の変化により、規模を半分に縮小する必要があると判断されたため、建築家自身はプロジェクトから撤退することになった。
