Svetionik je zamisljen kao vertikalni lavirint.

Na visini od 5m, se nalazi prva etaža sa **prostorijom** visine 3m.

One se ponavljaju iznova na svakih 5m, sve do vrha.

Osim osnovne uloge svetionika, koja je u danasnje vreme zamenjena modernijom tehnologijom, ovaj projekat namenjen je i **razonodi, rekreaciji i hobiju**.

Lighthouse is imagined like vertical **labirint**.

On hight from 5m is 1st floor with **room** which has hight 3m.

Room is repeating on each 5m, to the top.

Except basic roll of lighthouse, which is in this time replaced with more modern technology, this project is also made for **hoby and recreation**.
