

Jedinica za dve osobe, Severna Irska

Jedinica za dve osobe koja se nalazi na Severu Irske, na jednom od strmih klifova izgradjena je pre 17 godina. Prostor je jako mali (7 x 7 m) a cista spratna visina je 250 cm. Ipak, jedinica je tako koncipirana da se korisnici osecaju komotno u njoj jer je gotovo svaki element ove jedinice transformabilan. Sadrzi vrlo malo stvari koje odredjuju covekovo kretanje i razmisljanje i upravo zbog toga kao da vise podstice oslobadjanje uma i tela nego automatizam svakodnevice.

Unit for 2 people, located on cliffs of Northern Ireland was built before seventeen years. Interior space is small (7 x 7 m) and the heght from the floor to the ceiling is 250 cm. Nonetheless, the unit is conceptualised so that almost every inch of it is transformable. It contains only a few things that determine human's movement and thinking and because of this it seems that it courages people to free their minds and bodies more than automatism of everyday life.
